

Flames Roar On But Crisis Believed Past At Texas City

Texas City, Tex., April 18 (P)—Flames roared on for the third day on the industrial edge of this explosion-smashed Gulf port today, but Police Chief W. L. Laddis said that the crisis which had gripped the city since Wednesday morning was past. Estimates of deaths still ranged up to 650 and injuries around 3,000 persons. Property damage estimates ran from \$50,000,000 to \$100,000,000.

The major conflagration today was at the vast Humble Oil company's storage tank farm at the south of the city. Apprehensive residents still watched the boiling oil fires, but Laddis asserted: "I believe that all danger is gone."

Tanks Explode
Five or six storage tanks of approximately 55,000 gallons capacity had exploded and burned since 4 p. m. yesterday. Five other major blasts had rocked the city at intervals since 9:12 a. m. Wednesday.

The burning nitrate-laden French freighter Grandcamp exploded Wednesday morning to set off another blast at the huge Monsanto chemical plant. Chains of fire swept through the city in an aftermath.

For the most part, fires were left to burn themselves out, while rescue workers hunted through huge piles of twisted wreckage for the estimated hundreds of persons believed to have been buried.

"State of Emergency"
Twisted hunks of steel and other debris rained down on the industrial section of the city early yesterday when a second nitrate-laden ship, the High Flyer, exploded, sinking a third, the Wilson B. Keene.

A "state of emergency" ruled the city as Governor Beauford H. Jester issued a proclamation which also placed all law enforcement groups under the direction of Col. Homer Garrison, director of the Texas Department of Public Safety.

Hundreds of persons who had fled in terror Wednesday slipped back into town yesterday, to stand before improvised morgues in mute hope of finding relatives and friends or to stare at ruined homes and stores.

RED CROSS HAS TOPPED \$12,440 CAMPAIGN GOAL

The Adams County Red Cross went over the top this morning in its drive to raise \$12,440 to carry on its work for the coming year. A total of \$12,562.49, or \$132.49 more than the goal was reported by noon-time.

The two fire companies and the fraternities at Gettysburg college furnished most of the money that put the drive over the top with their sums being turned in after the drive was reported within \$88 of the goal on Thursday.

A \$50 donation was received from the Gettysburg fire company and the McSherrystown fire company sent \$10.

Fraternities Give
From Gettysburg college, Prof. W. D. Hartshorne, collector, turned in \$143.03. All but \$17 of that amount was contributed by college fraternities.

Also reported in today was \$3 collected by Nancy Slonaker in the Third ward and \$5 additional collections in the Second ward.

The Rev. George H. Berkhimer, chairman of the finance drive joined other officials of the Red Cross today in expressing their appreciation to the more than 200 canvassers who since March 1 have been ringing doorbells and soliciting funds for the county chapter.

Timely Achievement
Mrs. LeRoy H. Winebrenner, chairman of the Adams county chapter, said today: "It is particularly gratifying that Adams county should go over the top in its contributions to the Red Cross while the peace-time importance of Red Cross emergency services is being so well demonstrated in the Texas City disaster. The Red Cross continues to prove its services are just as indispensable in peace as in war."

Of the amount that was collected, about two thirds will remain in the county and approximately a third will go to the National Red Cross for use in various activities including such disasters as the present Texas City destruction, Red Cross officials pointed out.

While over a month and a half was needed to complete the drive, Red Cross heads pointed out that actually the solicitors had done a better job than usual with the snows of early March holding up many of the solicitors for nearly two weeks.

Letters of appreciation to the individual solicitors were mailed today.

They were welcomed to the city by Mayor C. Ray Bell, who commended the firemen for their loyalty and deplored "the delay of peace to a worried world." Stressing unexpected holocausts, such as the Texas City disaster, Mayor Bell urged firemen to be on the alert and eliminate fire hazards in every community.

OKLAHOMA GETS TURNPIKE FACTS FROM MITINGER

The Oklahoma Legislature turned to Howard C. Mitinger, Oak Ridge, field secretary of the Pennsylvania Free Roads association, for "true facts" relative to the Pennsylvania turnpike, the largest toll road in the Keystone state.

Mr. Mitinger, who has been advocating free roads throughout Pennsylvania for some time and is the active head of the Free Roads association, was invited by Streeter Stedman, of Sapulpa, Okla., chairman of the Oklahoma Legislative committee, to fly to Oklahoma City to tell his committee and other members of the Legislature about the Pennsylvania turnpike.

Oklahoma has before its legislature a measure to construct a 106-mile turnpike from Oklahoma City to Tulsa. Considerable opposition has been stirred up against the measure and eastern advocates of toll roads had appeared in Oklahoma City citing the "alleged advantages of a toll road."

Testified For Two Hours
Chairman Stedman told Mr. Mitinger that he wanted the Gettysburg man to "come to Oklahoma City and give us the actual facts with reference to the Pennsylvania turnpike, how it was financed, how it is operated and the general opinion prevailing in this state for and against toll roads."

ACCUSE MAN OF BLASTING POOL

Investigations conducted by William Britton, state fish warden, Chambersburg, and state police of the Gettysburg sub-station, resulted in the arrest Thursday afternoon of Olden Shultz, 35, of the Biglerville town, on a charge of throwing an explosive in a pool in Marsh Creek near Hartman's dam, near Cash-town, Tuesday.

Shultz was arraigned before Justice of the Peace John H. Basehor Thursday afternoon and committed to jail. Thursday night he was released in \$300 bail for a hearing before Squire Basehor Monday night.

Charges against Shultz were filed by Britton. Between 30 and 40 fish, many of them large trout, were killed when an explosive was thrown into the creek, authorities said. Several trout fishermen, out for the opening of the season, had reported seeing large fish floating dead in the creek.

DAIRY BREEDING COOPERATIVE TO GET UNDERWAY

Arrangements have been completed with the Southeastern Pennsylvania Artificial Breeding cooperative, located at Landisville, to extend its service immediately to Adams county. County Agent M. T. Hartman announced today.

A county-wide meeting of dairymen has been called for Tuesday evening, April 22, at the court house at 8 o'clock at which time a detailed explanation of how the artificial breeding service can be obtained for individual herds will be presented, Hartman said.

Earlier efforts to secure an artificial breeding cooperative in the county had been based on the idea of providing such a service by this fall, the county agent added, but with the new arrangement those cattle owners who become members of the cooperative on Tuesday evening or are already members can receive the breeding service at once.

600 Cattle Signed
The service will be available for Holstein, Guernsey, Jersey and Ayrshire cattle.

Arrangements for the service were completed Wednesday at a meeting of the directors of the Landisville cooperative attended by Hartman, Assistant County Agent Ira M. Dumire, and Edgar Leer, and J. K. Mansberger, both of York Springs, and Howard Waybright, Gettysburg R. 1, who are members of the temporary board of directors of the Adams county cooperative. Those directing development of the artificial breeding program in the county include the men who visited Landisburg, Joseph Stoner, East Berlin; L. G. Hartman, Aspers; Arthur Ebbert, Biglerville, who in addition to Waybright, Mansberger and Leer make up the board of directors, and other volunteer workers in 21 townships.

Approximately 600 head of cattle are already signed for membership in the cooperative and the county agent expects herds totaling 1,600 to 2,000 head eventually will be receiving the service in Adams county.

MEMORIAL DAY PLANS INCLUDE TRUMAN SPEECH

Borough Engineer LeRoy H. Winebrenner was elected grand marshal of the Memorial Day parade, at a meeting of the Memorial Day Observance committee Thursday night, held in the law offices of Attorney William L. Meals, Center Square.

David A. Tawney, representing the Sons of Union Veterans, was selected as one of Winebrenner's aides. Others are to be named later by the American Legion, Veterans of Foreign Wars and United Spanish War Veterans.

No further word has been heard from President Truman, and the committee is going ahead with its plans on the assumption that the president will be here on May 30.

The president "tentatively" accepted an invitation to deliver the Memorial Day address in the National cemetery on March 21. U. S. Senator Francis J. Myers personally extended Gettysburg's invitation on that date, at the White House. He was accompanied by U. S. Senator Edward Martin and Congressman Chester H. Gross.

Wants To Be Here
At that time the president expressed a keen desire to come to Gettysburg for the ceremonies, and said he would be here on May 30 unless national or international emergencies interfered.

The committee will seek to have a U. S. Army cavalry escort sent here for the president and a battery of artillery or half battery for the presidential salute.

In view of the fact that Governor James H. Duff has already accepted an invitation for the Memorial Day ceremonies here, an effort will be made to have the Valley Forge military academy band here, and an escort of the Governor's Troop of the National Guard, if possible.

There will be several other bands in the parade, if plans made by the committee materialize, including the Blue and Gray band, the Gettysburg high school band and others. Lawrence J. Sheads, representing the American Legion, promised that this organization will have a musical unit in line.

Parade Plans
Parade plans call for marching units of all veteran organizations and auxiliaries, school children, Girl and Boy Scouts and military units.

Harry G. Deatrick, chairman of the committee, presided at Thursday night's meeting, with Mr. Meals as secretary. Others present were Mr. Sheads and Alexis Chritzman, representing the Legion; Jesse E. Snyder, A. W. Warman, Mr. Tawney and Harry E. Koch, representing the Sons of Union Veterans; John Zimmerman, United Spanish War Veterans, and H. D. Crouse, Veterans of Foreign Wars. Mr. Winebrenner attended the meeting after being notified of his selection as grand marshal.

Miss Barbara Klinefelter, soprano, accompanied by Miss Sara Jane Maust, sang "My Hero," from the Chocolate Soldier, by Strauss, and "Thru the Years," by Yeomans. "Little Maust" presented a reading, "Little Man," Mrs. Cassell, violinist, accompanied by Miss Troxell, played "Blue Butterflies," by Dore, and "Souvenir de Lemberg," by Lerm. Reginald Dunkinson, soloist, sang "Linda Lee," by Williams, and "I Love Life," by Manna-Zucca. His accompanist was Donald Bollinger. Miss Elizabeth Sheffer presented as piano solos, "La Plus Que Lente," and "Arabesque," both by Debussy.

Mrs. Ann Bracey and Miss Rose Armor, co-chairmen of the program committee, planned the program, and were assisted by Mrs. Louise Slee and Miss Troxell. TO GIVE COURSE FOR SCOUTERS

A three-hour training session will be held for all scouters in the black Walnut district at Gettysburg high school Monday, April 28, Sneed Clift, local field scout executive, announced today. The session will start at 7:30 o'clock in the evening.

Scouters were urged to make every effort to attend the session because the regular University of Scouting courses will not be held this year, Clift said.

The three-hour session is a complete course for troop committees and those attending will be awarded a training certificate. In addition the meeting will be the only formal session for the scoutmasters' training course with the balance of the training to be completed "on the spot," Clift said.

Open to all scoutmasters, assistant scoutmasters and troop committees, the program will include the sound film, "Scout Trail to Citizenship," a discussion on relationship of the troop committee, commissioner, office staff men and the sponsoring institution, a sound film on "The Patrol Method," an explanation on "How to Complete Scoutmaster Courses 'On the Spot,'" another sound film, "The Three Assistants," a discussion on "The Records Essential to Scouting and Finances" and a discussion on "The Flow of Hiking and Camping."

Letters sent to scout officials in the district, which includes all of western Adams county, urge them to promote attendance on the part of all scouters in their troops.

Elect Mrs. Idle, Sr. As Lay Delegate

Mrs. Dunning Idle, Sr., Gettysburg, was elected as a lay delegate to the general conference, held every four years, at the annual meeting of the Central Pennsylvania Conference of the Methodist Church Thursday in Harrisburg. Eight delegates, four ministers and four laymen, were chosen. Mrs. Idle was the only one from this area.

Members of the conference today studied a report submitted by Dr. L. A. Welliver, president of Westminster Theological seminary, and head of the conference's board of ministerial training, recommending that young men be received on trial after completion of two-thirds of their theological course. This is a change from the previous ruling which demanded that all trial candidates finish the complete course.

Retired conference ministers will receive pension boosts amounting to \$550,000 under a plan adopted during Thursday's session. The funds necessary to finance the increases will be raised within a period of three years. The fund drive will be headed by the Rev. Rowland R. Lehman, superintendent of the Harrisburg district.

HENRY FORD'S WILL IS FILED

Detroit, April 18 (AP)—The will of Henry Ford, noted automobile industry pioneer, was filed for probate today but gave no inkling of its extent.

It left the bulk of the estate, represented in non-voting stock in the Ford Motor company, to the Ford Foundation, and all of Mr. Ford's holdings of voting shares to his grandchildren in equal shares.

Unofficial estimates of the estate's value have ranged upward of \$500,000,000.

Clifford B. Longley, attorney for the Ford family, said that when the will is finally cleared through probate, control of the vast Ford industrial empire will rest with the heirs of Edsel B. Ford, only son of Mr. and Mrs. Henry Ford.

The will, dated February 3, 1936, left only the Ford home "Fairlane," in nearby Dearborn, where Mr. Ford died April 7, to his widow along with some personal effects. Other than the bequests to the foundation, the grandchildren and the widow there were no specific bequests.

fore a jam-packed auditorium that overflowed into the corridors Mr. Mittinger's time limit was extended to more than two hours, after which he was bombarded with questions on all sides.

Mr. Mittinger said that Oklahoma legislators had "heard only one side of the story."

"They did not know that our turnpike was financed by a federal grant; that considerable traffic is deflected from parallel free roads onto the turnpike to finance its operation. They also had been told that our turnpike was free of accidents," Mr. Mittinger added.

The Oklahomans also had been told, the local representative said, that the proposed turnpike in their state would cost approximately \$26,000,000 whereas actual figures would likely double that amount.

Mr. Mittinger said that the westerners were much impressed with the "actual facts" as presented to them and later received confirmation on his statements as "proof of the pudding."

Mr. Mittinger's talk was broadcast over a state-wide hookup.

"So thoroughly had proponents of the turnpike spread their propaganda in Oklahoma that citizens there were of the opinion that the turnpike was a blessing to the state and that considerable feeling was engendered in Pennsylvania for an extension of the turnpike and the construction of more such highways," Mr. Mittinger said.

FIVE IN FAMILY PERISH IN FIRE

East Brady, Pa., April 18 (AP)—Five members of a family perished and five were injured in a fire which destroyed the two-story Broad street home of Walter Jordan in this western Pennsylvania town early today.

Dead were four children of Mr. and Mrs. Jordan, ranging in age from one to eight, and Mrs. George Jordan, about 60, their grandmother. The injured include the children's mother, who jumped from a second story window and saved three daughters who jumped into her arms.

Gritting her teeth against the pain of a leg injury suffered in her drop to the ground, Mrs. Jordan called to her daughters to plunge into her arms as flames on the upper floor seared them.

The dramatic dawn rescue was described by Mrs. Robert Murphy, wife of the East Brady fire chief. She said all the three daughters were burned before they jumped from the window. George Jordan, grandfather, also was severely burned.

The fire broke out at 5 a. m. after the children's father, Walter Jordan, had left for work at the Rimmersburg Mining Co., coal tipple at Kaylor.

The home burned to the ground, but firemen saved a storage building close by. A former grist mill, it was filled with paper boxes.

Mrs. Murphy did not know the names of the Jordan children.

SLOVAK PUPPET IS HANGED TODAY

Bratislava, Czechoslovakia, April 18 (AP)—Dr. Joseph Tiso, the parish priest who became president of the wartime Nazi puppet state of Slovakia, died on the gallows at dawn today for crimes against the Czechoslovak state.

His appeal for commutation from the sentence imposed Tuesday by a national court was rejected by the Czech government. Tiso, 59, formerly was a little-known Roman Catholic priest at Banovce. Long an advocate of Slovak autonomy in the pre-war Czechoslovak republic, he was named premier of an autonomous state of Slovakia by the Prague government in October, 1938, as an aftermath of the Munich pact.

He was ousted in less than six months, but Adolf Hitler immediately let it be known that he regarded Tiso as the rightful premier and the Slovak parliament, with the promise of German military protection declared Slovakia independent and Tiso again became premier.

He was elevated to the presidency during the war and was decorated by Hitler. He was captured by American troops in June, 1945, and turned over to the Czechs for trial.

Seek Doctors To Help Check Epidemic

New York, April 18 (AP)—Health authorities sought additional physicians today to aid in the wholesale smallpox immunization campaign in which, they estimate, 2,000,000 persons already have been vaccinated.

Dr. Israel Weinstein, Health commissioner, issued the call for help last night after learning that even the use of 82 police precinct stations as vaccination stations had been unable to meet the demand for immunization; the stations, opened at noon, vaccinated 119,486 persons before 10 p. m. He sent individual letters to all doctors, asking part-time help.

Meanwhile, a death from the contagious, air-borne disease was reported last night in another of the east's great population centers—Camden, N. J., across the Delaware river from Philadelphia.

Dr. David R. Helms, Camden Health director, announced that R. C. Smith, 38-year-old negro of Trenton, N. J., died of smallpox in a Camden hospital the first case there in 22 years. Dr. Helms said that after talking to Smith's widow and other relatives he could find no connection with the New York outbreak, in which two persons have died.

All five also were convicted on five counts of assault and on two out of three counts of destruction of property.

Says Dempsey Could Have Kyoed Louis

Los Angeles, April 18 (AP)—The sheriff of Ramsey county, Minnesota, looked across the table at the old mauler from Manassa, Colo., and declared: "Joe Louis is a great champion, but Jack Dempsey could knock out any man he could hit—and he could have hit Louis."

Thus spoke Sheriff Tommy Gibbons of St. Paul, the man who led Dempsey on a none too merry chase for 15 rounds in their title fight in Shelby, Mont., July 4, 1923.

"The only reason I didn't get up," went on Tommy, speaking at a luncheon given in his honor by Dempsey, "was because—thank heaven, I never was down."

Between helpings of cold cuts and coffee—and a pair of friendly half-nelsons applied by the playful Dempsey on two distinguished guests of the sports world, Mr. Suey Welch and Mr. Bud Taylor—Gibbons and the ex-champ recalled the ill-fated Shelby promotion.

WARRIORS EDGE STAGS IN RACE

Philadelphia, April 18 (AP)—The Red-hot Philadelphia Warriors held a commanding 2-0 lead over Chicago Stags today in the race for the Basketball Association of America championship.

The Stags succeeded in holding basketball's most prolific scorer, Joe Fulks, to a mere 13 points, but Howie Dallmar took up Fulks' mantle to lead the Warriors to an 85 to 74 victory last night.

In six meetings during the BAA's regular season, the Warriors were able to beat the Stags only once—but for the second straight night the Philadelphiaans unleashed a powerful last period assault to upend the westerners.

The playoff scene now shifts to Chicago where the third and fourth of the best-of-seven series will be held tomorrow and Sunday. Should the Stags win one of those games, the series would be prolonged, but no arrangements have as yet been made as to where further games would be played.

Philadelphia finished second behind Washington in the BAA's eastern division while Chicago copped the western division title. The Stags defeated the Washington Capitols and the Warriors won out in two semifinal rounds to reach the title play.

Although Dallmar's expert passing and 18 points topped the Warriors, it was largely accuracy at the foul line which gave the home team the victory. The Stags actually outscored the Warriors from the field, 30 baskets to 28.

GREENBERG HITS HOMER; PIRATES UPSET CHICAGO

By JACK HAND
(Associated Press Sports Writer)

The same old Hank Greenberg! That was the cry echoing around Wrigley field yesterday as Big Hankus, who was coaxed out of "retirement" by Pittsburgh, lofted a Hank Wyse pitch into the left field bleachers for his first National league home run.

Curve ball pitching, the cunning National league variety, was supposed to cut down the American league castoff. They were going to keep the ball low and outside, away from his power. But somebody forgot to tell Hank.

"They throw curve balls in the American league, too," Greenberg told springtime questioners who asked if he thought he would be bothered by the old No. 2 pitch. He gave them the rest of the answer in Chicago.

On opening day he doubled home the winning run off Hank Borowy, another ex-American league who had been waived to the National under mysterious circumstances. Wyse, whose sweeping curve won him the nickname "Hooks" was his next victim.

Boots Costly
The record books show that Greenberg never has been bothered by the National leaguers in the World Series. In fact, he hit 318 in four classics and bashed five hits, four of them for extra bases, in the games of the 1945 Series that were played at Wrigley field.

With the help of Hank's second-inning clout and six unearned runs on two boots by Lenny Merullo in the seventh inning, Billy Herman brings his Pirates home, tied for first place with Brooklyn and the Phillies. The Cubs' only run of the abbreviated series came in the ninth inning of yesterday's 7-1 defeat, at the hands of Preacher Roe.

Manager Johnny Neun's campaign to inject more punch into the defense-minded Cincinnati Reds paid off with a 9-4 victory over the St. Louis Cardinals, giving them a 2-1 edge over the champs in their opening series.

Augie Galan, Ray Lamanno, Clyde Vollmer and Frank Baumholtz all hit home runs to back up Freshman Kent Peterson's fine three-hit relief pitching. After Everett Lively had been knocked out in the three-run Cardinal first inning, Peterson, who had pitched only one inning of major league ball previously, stopped the Birds cold. Murry Dickson, the starter, was the St. Louis loser.

Rookie Stars
Brooklyn came up with a new "find" in Third Baseman Johnny (Spider) Jorgensen, who knocked in six runs with two doubles and a homer in the Dodgers' 12-6 win over Boston. A leaky infield put loser Mort Cooper on the ropes in the first inning and Kirby Higbe, the winner, was flattened in a four-run Boston spurt in the sixth. Jackie Robinson came up with his first big league hit, a bunt single off Glenn Elliott in the fifth.

Dutch Leonard turned in a workmanlike job for the Phillies in his first start, recovering from a poor start for an 11-5 victory over New York as his mates pounded loser Bill Ayers, Larry Jansen and Woody Abernathy for 14 blows. Mel Ott's second straight loss was doubly discouraging because his rookie pitchers failed to hold the Phils in check.

The Boston Red Sox showed unmistakable signs of picking up where they left off last season, dumping Washington 4-1 with Joe Dobson doing the honors. The veteran right-hander was helped by sharp Red Sox fielding while the boys hopped on Mickey Haefner for all four runs in the first two innings.

Yanks Nip A's
Floyd Bevens, the New York Yankees' "hard luck artist" of 1946 got a break in his first start although he had to throw a three-hitter at Philadelphia to win 2-1. Ferris Fain, booted Larry Berra's grounder to let in the winning run in the eighth, Dick Fowler was the loser.

Rookie Paul Lehner, a highly recommended prospect, came through with a pinch single with the bases loaded and two for the St. Louis Browns' 4-3 edge over Detroit in the 10th inning. Jack Kramer went all the way to decision Paul Trout, who homered in his own behalf in the fifth.

The majors stage their second openers today with the Cardinals entertaining Chicago at St. Louis, Brooklyn at New York, Cincinnati at Pittsburgh and Philadelphia at Boston.

The Yankees will be in Washington for the Presidential opener, postponed from Monday. Other American league games will find Cleveland at Detroit, St. Louis at Chicago and Boston at Philadelphia.

PHILADELPHIA — Billy Nixon, 146, Philadelphia, outpointed Johnny Williams, 141, New York, 8.

Lefty' Truman To Toss Ball Today
Washington, April 18 (AP)—President Truman finally gets a chance to use a pitching arm today.

Mr. Truman, a lefthander, was due to throw out the first ball (at 3 p. m., EST), when the Washington Senators open their home season in a baseball game with the New York Yankees.

The president had planned to pitch Monday, but that game was rained out.

The weatherman was much more encouraging about today's prospects. His forecast: Sunny and warmer.

CHANDLER JABS SPORTS WRITERS
Cleveland, April 18 (AP)—The nation's baseball writers today took a second look at several fast pitches tossed in their direction by Baseball Commissioner A. B. (Happy) Chandler.

Belying the nickname tagged on him during his political days, the former Kentucky senator last night utilized a Cleveland baseball writers' dinner honoring Indians' President Bill Veeck to throw some Sunday punches at the writers who have criticized his actions since he took office 23 months ago.

"I have respect for some of these baseball writers," Chandler declared. "But I've learned that you don't have to know anything to write. You just need a pencil, paper and the time. But they must learn that they can't make my decisions for me."

"They point out what a great person Judge Landis was. He was a great man, a rugged individualist. But, unlike the sports writers, I am not able to commune with Judge Landis to determine what he would have done. I make my own decisions."

Offer Big Purses At Williams Grove
Williams Grove, Pa., April 18—Top-ranking big car drivers from throughout the nation are being attracted for the first AAA big car auto race of the 1947 season in Pennsylvania by the unusually large purse being offered by Roy Richwine for his inaugural program scheduled for Sunday, April 20, on the famous half-mile Williams Grove Speedway.

In order to guarantee fans the best in big car racing talent, cars and equipment, Richwine is offering \$7,000 in prizes and guarantees for the opening program next Sunday. The purse for the afternoon's competition is much larger than any purse offered by any other operator of a half-mile speedway in the east, and in many cases larger than prize money offered for competition on longer tracks.

Today's Talk

By GEORGE MATTHEW ADAMS

AND ENDURANCE

Which is the greater achievement—the Accomplishment, or the Endurance essential to it? I would say the Endurance. As an example I would point to the discovery of the North Pole by Admiral Peary. It took Peary something like twenty years or more to gain his goal, but the Accomplishment itself was of little importance, at least at that time.

Endurance is made up of will, courage, determination, and character. Without endurance no great ideal or Accomplishment is possible. How many an artist, writer, scientist, business man, has gone through years of struggle, and often hunger and dire discouragement, to achieve his objective. The athlete and the race horse have to have Endurance. It is their stock in trade—their one outstanding essential.

Accomplishment, of course, is most important. The idea of it is what leads us all on. It's like the lead horse, or experienced guide, always in front. We have to keep before us at all time something to inspire us forward.

How often we hear the expression, upon the occasion of a humble human being's end of his earthly career, that "he fought the good fight." He Endured to the end. Well, that is something—something quite inspiring, though no great Accomplishment be carved upon his tombstone. To have striving, hardily and honestly—that in itself is Accomplishment.

Many of our Accomplishments are attained wholly for the pure pleasure that they return, void of all material gain, or outward applause. Just to have Accomplished something for the inward joy of the thing. Our spiritual nature is nourished by just such things. And I am quite sure that many of our intricate bodily faculties join at such a time in a chorus of rejoicing!

It's the small pleasures of life, scattered among the more difficult tasks that give zest to us all, and which encourage us to go on and on, no matter how trying most of the way may be. A little applause here and there means so much. It lifts Endurance! In fact, glorifies it.

Tomorrow Mr. Adams will talk on the subject: "Want To—Enough!"

BLUE HAIR

The lady with the sky-blue hair
Went lightly tripping by.
Though mother taught me not to stare,
Wide open-eyed was I.

I'm used to scarlet finger-tips—
Unmoved such nails I view.
And, I am used to crimson lips,
But not to tresses blue.

At first I thought it was a hat
The little lady wore.
I'd seen a bonnet blue as that
Displayed within a store.

A second look—and, oh, the shock
That struck me like a blow!
I'll swear the lady's every lock
Was blue as indigo.

Think not with woman I'd dispute
Or quarrel with the styles.
I know that man's a heartless brute,
A villain, when he smiles.

I know that woman must repair
The damage years will do;
But lady, all that sky-blue hair—
Is not improving you.

Dear lady, if you'd fool us all
And hide the coming gray,
For red or brown or yellow call
Where dames for beauty pay.

But, if you fancy sky-blue hair,
As you appear to do,
The vulgar men you pass will stare
And loudly laugh at you.

Littlestown ENGLISHMAN IS LIONS' SPEAKER

James Rogers, wholesale tobacconist and stationer, of Manchester, England, was the speaker at the semi-monthly meeting of the Lions club Thursday evening at Banker's Restaurant. Instead of the usual lecture-type talk, Mr. Rogers answered questions on the social, governmental, and business life of England.

Mr. Rogers is the father of Mrs. Russell Collins, the former Joyce Rogers, of 5 West King street, Littlestown. Mr. and Mrs. Collins were married in Manchester, England, on December 13, 1944, while Mr. Collins was stationed at Burton Wood Air Depot, Warrington, Lancashire county, England. She arrived in this country over a year ago.

Mr. and Mrs. Rogers arrived on the Queen Elizabeth on March 20, and expect to leave the latter part of July. They resided for some time in the Hartman building, Littlestown, but are now living in the Lee-Meade inn, Gettysburg. Among other reasons, they came to America to be with their daughter on the occasion of the birth of her child recently.

Lion President Holman L. Sell appointed the following nominating committee: James U. Bowers, Erwin A. Rebert and Rev. Kenneth D. James. A donation of ten dollars was voted to the Pennsylvania Cancer Fund.

The Greater committee, composed of Rev. Kenneth D. James, John LeGore, and Erwin A. Rebert, was in charge of the meeting. The meeting May 1 will be in charge of the Convention committee, composed of John R. Bloom and Sterling Wisotzky.

CALMNESS—**

It is especially true that "excellence thrives on calmness" where science, research and deep study are concerned.

Medical Education, from the time it begins in College, on through the years of Medical School, Internship and Postgraduate work, should be nurtured in calmness, and tutored by sound, experienced medical minds.

The prevention and cure of diseases affecting life and health are the special responsibility of our Medical men and women.

American Doctors shouldered this responsibility, when the present American Medical Association was organized in 1902, to raise and maintain standards of excellence in Medical Schools and Hospitals.

Through sound, calm, ethical planning and procedure, these standards are maintained and constantly improved.

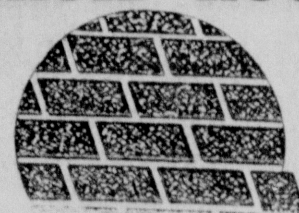

KEEP American health and medical education the most excellent in the world—by keeping them out of the turmoil of politics.

House-Approved Labor Bill Gets Cautious Reception Today In U. S. Senate

PASSED WITH
ENOUGH VOTES
TO BALK VETO

By MARVIN L. ARROWSMITH

Washington, April 18 (AP)—The House Labor bill, laced with tight checkreins on unions and strikes—and backed by more than enough votes to override a presidential veto—landed in the Senate today.

It got a cautious reception there. The Senate expects to start debate next Wednesday on its own bill which lacks many of the union cures the House voted. Chairman Taft (R-Ohio) of the Senate Labor committee hopes to add some on the floor.

But the changes he has in mind would leave the Senate bill still far less stringent than the house measure. This indicates a big job in ironing out differences when the bills go to a conference committee perhaps late this month.

Lopsided Vote

The House passed its bill late yesterday by a lopsided roll call vote of 308 to 107. A powerful coalition of Republicans and southern Democrats pushed it through, after rejecting all amendments to tone it down.

While this was happening, the Senate committee voted 11 to 2 approval of its legislation. Senators Pepper (D-Fla.) and Murray (D-Mont.) dissented after playing a major role in a rewrite job which stripped the bill of several proposed curbs on union activities.

In some respects the House bill and the Senate committee measure are alike. For example, both would ban the closed shop, which compels the boss to hire only union members.

Authorize Injunctions

Permit the more common union shop where a majority of workers vote for it, and—in the case of the House bill—where employers want it. Under union shop agreements, workers must join the union shortly after they are hired.

Authorize court injunctions to stop or block "National paralysis" strikes, such as a coal or telephone strike. The injunctions would stay in effect during compulsory mediation.

Set up a new federal mediation agency, independent of the labor department.

visions stops short. The House bill, but not the Senate's, would:

1. Outlaw jurisdictional strikes and secondary boycotts. Jurisdictional strikes usually stem from disputes between unions as to which should do given work. A secondary boycott is a refusal by one union to handle the products of another.

(The Senate bill procedure on such strikes and boycotts is to make them unfair labor practices. This means the National Labor Relations board could obtain an injunction when a union failed to obey an order to drop the practice.)

Ban Industry Bargaining

2. Ban industry-wide bargaining, but not company-wide agreements, in nearly all cases.

3. Rule out mass picketing and violence in picketing.

4. Authorize expulsion of Communists from union membership. Unions could not be recognized for bargaining purposes if any officer is, ever has been or could "reason-

British Laborites
Laud Mr. Wallace

London, April 18 (AP)—A letter signed by 111 members of Parliament, more than 100 of them Laborites, thanked Henry A. Wallace Thursday for "the contribution you have made during your visit to Anglo-American understanding and to the cause of world peace."

Wallace was handed the letter, whose signers included four lords, shortly before leaving for Scandi-

navia to continue a speaking tour pleading for "the century of the common man" and "unity of the world for peace."

The signers constituted about one-sixth of the House of Commons membership of 640 and included Konni Zilliacus and other Socialist "rebels" who have opposed the Labor government on foreign policy and conscription. William Gallacher, one of the two Communists in the House, was one of the signers.

ADVANCE SALARY BILL

Harrisburg, April 18 (AP)—The House gave initial approval Thursday to a bill providing salaries for first time in Pennsylvania's history to members of council in the commonwealth's 934 boroughs. Two additional readings, however, are necessary before a vote is taken, possibly next week.

Claim Russia Has
'Mechanical Miner'

Moscow, April 18 (AP)—The Moscow News, the Soviet Union's English language newspaper, said Thursday Russian inventors had developed a "combination mechanical miner" which constituted a "technical revolution" and would do the work of 30 skilled mine workers.

The machine, the paper said, will erase "the acute shortage of skilled mine workers experienced by the Soviet mining industry owing to the high rate set for expanding production." The News added:

"None of the miners thus replaced need fear unemployment, which is precluded by a planned Socialist economy."

The paper reported that 60 models for coal-mining machines had been

submitted and that two had been chosen for production. These, it said, were designed by S. S. Makarov, designing engineer of the Karaganda coal fields, and Y. T. Abakumov, engineer and deputy minister for the eastern coal fields.

A pound of coal converted into electricity will keep a 100-watt electric bulb going more than seven hours.

SCHOOL HEALTH EXPANSION PLAN BEING ADVANCED

Harrisburg, April 18 (AP)—The commonwealth's multi-million dollar school health program will be expanded to provide follow-up care for ailing school children under a plan readied today for a vote in the legislature.

A measure to require every school district to retain a school health nurse to make home visits in connection with the examinations was amended in the House to permit application by needy parents to local boards of assistance for financial help in correcting defects.

Gov. James H. Duff, urging in his budget \$7,800,000 for the program instead of \$4,000,000 in the next two years, said "unless the defects that are found are corrected the money expended for finding them is largely wasted."

Both Houses Adjourned
He proposed the increase in the appropriation for employment of nurses by the State Health department for follow-up visits to the homes of school children. There was no proposal, however, for additional public assistance funds for medical care for needy children.

The amended House measure was substituted for a previous bill sponsored by Rep. Ivan C. Watkins (R-Schuylkill) which imposed penalties on parents for failure to have follow-up medical or dental care.

Meanwhile, the Senate and House adjourned until Monday after holding off further legislative action on controversial labor bills pending a joint public hearing on legislation to ban the closed shop in any form, prohibit strikes by school teachers or other public employees, require compulsory arbitration of labor disputes at public utilities and conciliation in advance of any strikes.

Action on the governor's \$133,000-600 tax program also was delayed until next week, at least, as members of the Senate Finance committee felt for their homes without taking action on bills to impose new taxes on soft drinks and tobacco products and increase those on beer, cigarettes and corporations.

In 1899 it required 7.05 pounds of coal to generate one kilowatt hour of electricity. By 1946 this had been reduced to 1.3 pounds.

Convicted Third Time In Death

Tunkhannock, Pa., April 18 (AP)—Mrs. Florence Mae Randall Thurs. was convicted for the third time of being an accessory after the fact in the slaying of her husband.

Waiving trial by jury, the 38-year-old auburn-haired woman was found guilty by Judge Edward B. Parr in Wyoming county court. He fined her \$1,000 and costs and set her free.

"Accessory charges constitute a misdemeanor and not a felony and are not very serious," Judge Parr said. "Mrs. Randall has been in jail for some time awaiting trial and I do not believe she should be further committed."

Mrs. Randall's husband, Charles, a Harvey's Lake Boat concessionaire, was shot to death Memorial Day, 1945. Kenneth Ferrell, 32-year-old lumberjack, was sentenced to life imprisonment for the actual slaying.

Plane Helps Swan In Search For Mate

Los Angeles, April 18 (AP)—Gus, a swan who bosses the decorative flock in a cemetery pond at nearby Glendale, was en route by plane to Boston, Mass., today as part of a long range plan to cure him of the blues.

Officials of Forest Lawn Memorial park confided to newsmen that Gus has grown gloomier and gloomier since his mate, Elvira, died last month. Attempts were made, they said, to interest him in other female swans of the flock but to no avail. It seems that male swans are extremely choosy about their mates.

They hope Gus will find the right

Hollywood News

Hollywood (AP)—An interesting economic phenomenon is going on in Hollywood these days—actors' salaries are heading up in the movies, and down in radio.

Screen Actors' Guild negotiators are now meeting with representatives of the three producers' groups to formulate a new working contract and the result will apparently be a rise in salaries, possibly quite sharp. Meanwhile, top acting wages are hitting a decline in radio. One comedienne was told to slash her program cost almost in half if she expected to stay on the air, and many others will have to economize or be replaced by cheaper shows.

"Quality With Economy"

Beau Brummell of the Boulevards!

YOU'RE practically that, of course, the minute you take over any new 1947 Buick. Never before has any automobile so completely won the country by its beauty — so clearly defined the shape of cars to come.

But really to take the stage and hold it — to cut a dashing figure in the smartest of smart company —

Mister, just picture yourself in this bold beauty here.

It is without question the most wanted version of America's most wanted car.

It's wanted for the freedom that's yours when its handy control swings back the top — and the sky becomes your roof and the birds your travel mates.

It's wanted for the lift and surge of its satiny straight-eight Fireball power plant, master of

every grade and hill, monarch of the farthest horizon.

It's wanted for bigness, and the deep comfort of low-set, cushiony seats — wanted for the floating ease of soft all-coil springing, and the sure-footed stride of a car that's big enough and brawny enough for its job.

It's wanted for styling that already has set the pattern for years to come — it's wanted for fun, for adventure, and for year-round, all-round full family use.

The demand for it? Great, of course. The supply? Mounting as fast as Buick's beaver-busy production staff can free up the supply of the fine materials that go into it.

So with patience, one can be yours. With patience, that is — and the foresight to get your order in now.

A FINGER TOUCH — and the door window runs up or down automatically. Other handy controls raise or lower the top and adjust the front seat.

Snyder post, No. 321, American Le- gion, Littlestown, Thursday evening. The baseball committee reported on a meeting held in Hanover Sunday to further plans for the Junior American Legion Baseball league. Littlestown, Hanover and McSherrystown are members of the league. An all-star team will be picked from the personnel of the four teams to represent this district in the play-

offs later in the season. The group will play under the sponsorship of Harold H. Bair post, Hanover. It is expected that Littlestown will have representatives on the all-star team.

The local athletic director will attend a meeting tonight in York, which was called by the state di- rector.

SEWER WORK CONTINUES

Residents of the northern end of Littlestown are quite "sewer con- scious" by now. The streets in that section of town are dug up, and traffic moves over a narrow one- way path. The Globe Contracting company, Philadelphia, is in charge

of the work. At present pipe is be- ing laid on the lower end of North Queen and Prince streets, and on Newark street.
